

AMENDMENTS TO THE DRAWINGS

Please substitute the attached Replacement Sheets, containing Figures 6-11, for the corresponding sheets on file in this application.

Attachment: Replacement Sheets of Figures 6-11.

REMARKS

The specification has been amended. Claims 1-24 are pending. No claims are amended. Applicant reserves the right to pursue original and other claims in this and other applications.

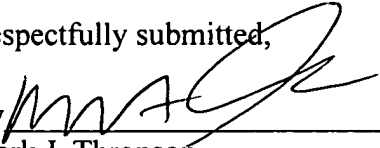

Figures 6-11, as amended in the Response to Non-Final Office Action submitted December 14, 2007, stand objected to under 35 U.S.C. § 132(a) as introducing new matter into the disclosure. Per Examiner's request in the outstanding Office Action, the December 14 drawings (and corresponding Corrected Drawings submitted on January 14, 2008) are withdrawn. New Replacement Figures 6-11 are submitted herewith. The Replacement Figures obviate the concerns raised in the outstanding Office Action. Steps S3 and S4 in each of Figures 6-11 are further clarified by the respective corresponding description in the specification. *See, e.g.*, Specification, page 16, line 6 – page 17, line 20.

Claims 1-24 stand rejected under 35 U.S.C. § 112, first paragraph, as failing to comply with the written description requirement. This rejection is respectfully traversed. The rejection has been obviated by amendment. That is, the language which is the basis of the rejection has been removed from the specification.

Applicant respectfully submits that support for “if the first rotation mode is not suitable for the storing and reproducing of the user request, changing from the first rotation mode to a second rotation mode,” as recited in claims 1 and 18, can be found in the specification at least at page 7, lines 5-9, page 15, lines 18-22, page 16, lines 6-24, and page 17, lines 16-20. Support for the similar element of independent claim 9 can be found in the specification at these locations as well. Accordingly, Applicant respectfully requests that the rejection of claims 1-24 under 35 U.S.C. § 112, first paragraph, be withdrawn, and the claims allowed.

In view of the above, Applicant believes the pending application is in condition for allowance.

Dated: September 12, 2008

Respectfully submitted,
